ABOUT THE SELF- HELP FUND

The Ambassador's Self- Help Fund provides small grants to registered self- help groups, community based educational institutions and medical facilities.

The objective of the Fund is to assist groups in the development of projects that improve living conditions for the community. Only projects that have strong community involvement and lead to ongoing, self-sustaining activities are eligible for funding.

The Fund receives many more applications each year than can be funded. Careful and complete preparation of the attached application form will give your group or institution a better chance of receiving a grant.

THE GRANT PROCESS

The Self- Help Coordinator reviews all completed applications. Applicants are then informed of the status of their project. Those that are not accepted are given an explanation of why we cannot fund the project.

If the proposal meets the grant criteria, an assessment visit will be scheduled to meet the group and discuss the proposal more thoroughly. Projects that still qualify are submitted to the Self- Help Advisory Committee, who make the final decision on which projects to fund. This committee meets several times a year, and consists of the Ambassador and several American staff members.

Grants are usually awarded between May and July each year.

If the grant is approved, the group and the United States Government sign a legally binding contract. Funds are not paid directly to the group, but to the suppliers of equipment and materials. Suppliers must agree to be paid after goods are delivered and upon receipt by us of a signed delivery note and final invoice. The group must provide ongoing project reports and a final, written, project evaluation. The coordinator may visit the project to assess progress, and upon project completion a follow- up visit will be scheduled.

CRITERIA FOR APPLICATION

Applicants must be self- help groups, schools, or other recognized institutions, with appropriate registration documents. Groups and institutions must be well established, have been operating successfully for a minimum of one year, and have a solid history of accomplishments. The group should have an account with several signatories at a recognized financial institution.

We do not accept applications from individuals or private business enterprises.

Grant Amounts

Grants range in size from \$1000- \$10,000. Most grants are no more than \$5,000. The average grant is \$3,000- \$4000. When awarding grants, we take into consideration the type of project and the number of people who will benefit.

Preference is given to projects which:

- Benefit many people,**
- Enhance income-generating activities,**
- Introduce appropriate technology,**

Projects should be within the means of the community to manage, and should be completed within one year of signing the funding contract.
